

Ideal for use in warehouses, manufacturing processes, and production facilities, Cruiser CCT counting scales are practical for any counting application. Quickly check the number of pieces in a carton or container to reduce waste when filling orders or packing shipments. Intuitive software is user-friendly and keeps track of the count, automatically optimizing the unit weight for greater accuracy. For fast configuration and easy operation, the CCT stores up to 140 PLUs in memory. The programmable backlit display can be customized to be “always on,” “always off” or to light only when weighing.

Easy operation and a durable design provides a powerful solution for industrial needs

Features

- Backlit LCD shows weight, unit weight and count in one convenient location
- Color-coded keys facilitate quick recognition of the most frequently used buttons
- RS-232 interface provides speedy connection to computers and printers
- Optional USB interface simplifies data communication
- Solid ABS housing is durable for industrial use
- Adjustable leveling feet help optimize setup
- AC adapter included
- Programmable auto power-off to save energy
- Rechargeable battery included for operation almost anywhere
- Built-in memory for storing products and settings
- External calibration allows for verification and adjustment with weights
- 1:1,600,000 Internal counting resolution for precise results
- Parts counting optimization automatically refines piece weight as parts are added
- Parts counting with freely selectable sample sizes
- Preset tare function speeds the process of repetitive weighing
- Programmable for counting to a preset number of parts

Applications

- Weighing
- Parts counting
- Check counting
- Net total weighing

Scoops

Metal scoops are designed to make portioning and food measurement easy. Two sizes available: small and large.

AIP Impact Printer

Easy to use, the AIP high-speed dot matrix printer connects with any device containing an RS-232 or USB interface. Communication is smooth and fast, as the AIP automatically detects a scale's settings. AIP features durable ABS plastic construction and is simple to use, as it operates with just an on/off switch and a paper feed button.
